### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 8, line 5, delete "and" in the second appearance and insert -acid-  
This correction is supported in the original specification at page 6, line 14.

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: The closest prior art is Guo et al U.S. Patent 6,177,088.

3. Guo does not disclose a metal oxide substrate, or a process for making a modified metal oxide. There is no motivation to substitute metal salts having water-soluble inorganic anion or cation with a metal oxide. However, Guo discloses an ionic salt that can be in the form of a nanometer-scale bead, column 3, lines 12-23 surrounded by a first layer of anionic surfactant and a second layer of a polymer shell having organic acids functionality. There is no surfactant in the present claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Olga Asinovsky whose telephone number is 571-272-1066. The examiner can normally be reached on 9:00 to 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
